

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## EXPLANATORY PREFACE.

---

THE first part of this Catalogue gives a list of the Books in the Library of the Friends' Institute arranged alphabetically, generally under the Authors' names, and in the case of Biographies they are also entered under the name of the person whose life is written.

The second part is an index to the first with the books grouped into subjects; it gives short titles, and in some cases merely names of Authors, but these always connect with the fuller titles in the first part.

A Member desiring works on a particular subject should consult the Contents, in which will be found a full list of the main groups, together with their sub-divisions: from these he will select such as are likely to embrace the subject upon which he desires information. At the head of many of the groups will be found a paragraph containing a list of the books, which, although not especially pertaining to that group, yet contain information upon it; this paragraph also includes such books as pertain to the main group rather than to any of its sub-divisions: *e.g.*, SCIENCE GENERAL, Darwin.

The valuable collection of the publications of the *Parker Society* are arranged together alphabetically under HISTORY, CHURCH: the publications of the *Cobden Club* under SCIENCE MENTAL & MORAL, POLITICAL ECONOMY: *English Men of Letters* under BIOGRAPHY GENERAL: and the *Writings of the Fathers* under CHRISTIAN TEACHING.

The Pictures may be classified under two main heads, *viz.*, GALLERY, &c., and CABINET.

The former contains framed portraits of deceased Friends who have been prominent in the Society, or who were eminent in Science, Literature, Art, Manufacture, Philanthropy, Religion, or Social Reform. In it will also be found the representations of a few Meeting Houses and Schools, and (under the head "Miscellaneous") of various places and subjects closely connected with the Society's history.

The collection in the CABINET comprises:—

1st. Albums in which are many hundred *carte de visite* portraits of deceased Friends.

2nd. Portfolio and Cases containing Portraits of deceased Friends, and a variety of other pictures of interest to Friends generally.

13, Bishopsgate Without,  
London.

Ninth Month, 1907.
